Clinical Research

2019-2020	Pediatric Bipolar: Understanding the ‘Lived Experience’. Role: PI. Co-PI with Dr Howard Butcher. Status: Ongoing. Phenomenological research to explore people’s experience with being diagnosed with pediatric bipolar and what approaches work best to ameliorate the symptoms of bipolar disorder.
2017-2019	Evaluating Student Perspective of Curriculum Change to a PMHNP-DNP Program. Role: PI. Funding: None. Status: Complete. Outcome: Evaluated the knowledge base and interest of PMHNP-DNP students understanding genomics in clinical practice. Pre and post survey given after stand alone genetics course is added to the PMHNP-DNP students plan of study.
2016-2017	Improving Diagnostic Rates of Pediatric Bipolar. Role: PI. Funding: Office of Nurse Research, University of Iowa College of Nursing, \$2000. Status: Complete. Reviewed diagnostic rates of Pediatric Bipolar Disorder at University of Iowa Hospitals and Clinics, Child and Adolescent Outpatient Unit.
2013-2015	Improving Diagnostic Accuracy of Pediatric Bipolar within an Outpatient Practice. Role: PI. Funding: None. Status: Complete. Investigated rates of Pediatric Bipolar disorder and compared accuracy of diagnosis from scores on screening tool versus provider diagnosis without the screening tool scores.
1997-1999	Examining N400 and P200 EEG waves impact on Depression. PI: Dr Greg Miller. Role: Research Assistant. Status: Complete. Ran electroencephalogram (EEG) on subjects and recorded data. Also assisted in analyzing the data specifically looking at N400 and P200 EEG wave.
1997-1997	Examining psycholinguistics impact on mood and anxiety. PI: Dr Kathryn Bock. Role: Research Assistant. Status: Complete. Conducted trial to elicit psycholinguistic cues to analyze their impact on mood and anxiety.
